Experience

Tech Support Specialist

RETAIL BUSINESS SERVICES, an AHOLD DELHAIZE COMPANY • Carlisle, Pa

11/2014 - Present

Tech Support Specialist providing internal/external software, hardware, and network support for all associates in a corporate/retail environment.

- Respond to inbound phone calls, emails, and internal requests/tickets for all software, hardware, and network issues.
- Provide troubleshooting on all hardware related requests/tickets and dispatch technicians for service.
- Provide remote PC/Software support to all end users via internal remote access tools.
- System administration for Windows 7/10, web apps, servers, and controllers following PCI DSS guidelines.
- Research issues using internal/external sources and escalate incidents with high impact levels or that have not been resolved within the SLA.
- Document all support interactions via ticketing systems such as BMC Remedy/ServiceNow platforms. Other job-related documentation includes internal knowledge base article creation as well as escalation processes for both end users and support personnel.
- Participate in scheduled global system and OS upgrades via onsite authorization verifications and completion tracking adhering to Change Management guidelines.
- Collaboration with support teams, developers, and key stakeholders to provide incident work arounds and rapid resolutions.
- Perform additional departmental support tasks such as accounting software troubleshooting and other tasks/projects as needed.

- Participate in team meetings and provide feedback on troubleshooting changes/updates.
- Stay current with system information, changes, and updates.
- Provide effective communication across several channels with a diverse range of individuals and teams.

Senior Recovery Specialist

Torres Collection Services • Carlisle, PA

08/2012 - 10/2014

Senior Recovery Specialist providing collection services and managing corporate accounts for utility service clients in a call center environment while adhering to FDCPA guidelines and meeting company metric and collection goals.

- Provide excellent customer/recovery services and assigned to train new team members as needed.
- Provide strong customer location services utilizing skip tracing tools and techniques to increase company revenue annually.
- Provided excellent documentation on all customer interactions via internal CRM. Other documentation tasks include agent scripts and providing proof of payment correspondence by mail or fax.
- Provided data entry by entering new customer account information received from clients with high attention to detail and accuracy prior to account being submitted to daily call cycle.
- Provide live payment processing via debit, credit, or check by phone. Negotiated and setup recurring payment plans for all accounts not paid in full.
- Provide excellent communication with team and all three major credit bureaus submitting updates and derogatory removal requests for all satisfied customer accounts.

Customer Service Representative/Call Center

Performant Financial Corporation (Contract) • Harrisburg, PA

10/2007 - 08/2012

Customer Service Representative providing drivers licensing examination scheduling and drivers license restoration services to the public in a call center environment.

- Provide excellent customer service for all inbound inquiries in regard to drivers license exam scheduling and individual driver license restoration requirements.
- Kept accurate records of all interactions, including customer names, addresses, phone numbers, etc. Also updated internal systems with accurate information pertaining to the licensee.
- Adhered to the company policy of 100% accuracy when providing drivers license information to all personal and commercial license holders by utilizing the knowledge base on all interactions.
- Developed relationships with new staff members, and assisted in training new hires and ensuring the company accuracy metrics are met.
- Provided excellent verbal and oral communication across all departments and team members.
